ENTERPRISE PORTAL · FOR FASHION BRANDS

Replace 4 sourcing tools with one dashboard.

Curated catalog. Embedded credit. Team workflow. Same-day onboarding.

01 Curated catalog
Each brand gets a personalised view (Denim, Cotton, Knits…) — no scrolling through 200+ generic SKUs.

02 Embedded credit lines
Pre-approved working capital from Stride, Mintifi, Muthoot — pick a lender at checkout, place orders on credit.

03 Sample-credit wallet
Top-up via Razorpay or admin OTP. Merchandisers order swatches without per-PO finance approvals.

04 Multi-tenant: invite factories
Onboard your sub-contracting factories. They inherit your category access + credit line — Locofast verifies.

05 Tech-pack + PO upload at cart
Attach buyer POs and your tech pack as files. Every order has full paperwork — no separate emails.

06 Predictable dispatch SLAs
Ready Stock 1–14 days; Made-to-Order 15–75 days. Same SLA for bulk and samples — contractually committed.
